Adhesives

The L.V. Lomas Adhesives technical sales team brings the necessary experience and industry knowledge to help you successfully meet any formulation challenge. Our comprehensive product range covers your needs from additives and extenders to pigments, adhesive polymers, tackifying agents and beyond.

Below is a list of solutions that L.V. Lomas supplies to the adhesives industry. All products are sourced from the world's leading manufacturers.

Requirement	Solutions
Additives	Antioxidants, Calcium Oxide, Castor Wax and Derivatives, Cellulose Fibres, Citric Acid, Defoamers, Glucose, Glycerine, Magnesium Oxide, Polyethylene Glycol (PEG), Sorbitol, Sulphur, U.V. Absorbers (HALS)
Adhesive Polymers	Acrylic Resins, BR, Diluents, Epoxy, Epoxy Hardeners, MAA, MMA, Polysamide Hot-Melt, Aliphatic Isocyanates, Polyester Polyols, Polyether Polyols
Biocide	Fungal, Microbial
Flame Retardants	Alumina Trihydrate, Magnesium Hydroxide, Molybdenum Oxide, Phosphate, Surface Treated Flame Retardants,
Functional Extenders	ATH, Barium Sulphate (Barytes), Calcium Silicate, Clay (Calcined, Delaminated, Modified, Structured, Water Washed), Diatomaceous Earth, Glass Bubbles, Ground Silica, Hollow Ceramic Microspheres, Kaolin Clay (Air Floated), Nepheline Syenite (Minex), Talc, Defoamers, Biocides, Fungicides, MICA
Oils	Aromatic Oils, Castor Oil, Linseed Oil, Naphthenic Process Oils, Paraffinic Process Oil, Soya Bean Oil, Mineral Oil
Packaging	Lithographic, Metal and Plastic Containers UN Designations
Pigments	Carbon Black, Iron Oxide, Organic Pigments, Pigment Dispersions, Titanium Dioxide (Anatase), Titanium Dioxide (Rutile), Oil Soluble Dyes
Plasticizers	DOP, DBP, Phthalate Free, Polymeric, Monomeric
Tackifying Resins	Aliphatic C5, Alpha Methyl Styrene (AMS), C9, Gum Rosins, Hydrogenated C5, Polyterpenes, Rosin Esters, Styrenated Terpenes, Terpene Phenolics, Waterborne Tackifiers
Thickeners, Rheology Modifiers	Acrylic Thickeners, Ase Thickeners, Attapulgite Clay, Bentonite, Cellulosic Fibers, Cellulosic Fibers, Hydrocolloid Gums, Precipitated Silica, Xanthan Gum

These are just some of the hundreds of solutions we can bring to your enterprise. Call your L.V. Lomas representative today and start converting your adhesives challenges into flawless products.
